

# QUICK START GUIDE

## WELCOME TO WYZE

Thanks for getting your hands on a Wyze Sprinkler. If this is your first Wyze product, welcome to the Wyze family! Whether you bought this to start an elaborate garden or to just keep the lawn green, you have made a good choice. Let's get started by setting up your Wyze Sprinkler.

### IN THE BOX

Wyze Sprinkler × 1  
Power Adapter × 1  
Mounting Plate × 1  
Wire Label Sheet × 1  
Screws & Anchors × 2  
Cord Wrap × 2  
Quick Start Guide × 1  
Sprinkler Plus Coupon × 1

### WHAT YOU'LL NEED

Drill  
7/32 Drill Bit  
Hammer (for drywall anchor)  
An irrigation system (Wyze Sprinkler replaces your old controller but relies on your existing irrigation system)

## SETUP

1 Download the Wyze app and sign in or create an account.

2 Open the Wyze app. Select Wyze Sprinkler from the Add Device screen. Follow the instructions in the Wyze app to complete setup.

## WARNING/CAUTION

Do NOT install device in a location that will be exposed to the elements. It is intended for indoor use only.

Do NOT use device with index valves.

Always unplug device from power before adjusting any wires after installation. Never touch live wires. Harmful or fatal electric shock may result.

Ensure that all wiring complies with local building codes. Do not connect more than one valve to a terminal or two devices together. Doing so may result in damage to the device(s).

## PRODUCT SPECS

**Model:** WSPRK1

**FCC ID:** 2AWHIWSPRK1

**ISED ID:** 26041-WSPRK1

**Temperature:** -4°F – 122°F (-20°C – 50°C)

**Power:** AC 24V ~ 60Hz 800mA

**Weather Resistance:** Indoor use only

**Valve Output:** 24V AC, ~60Hz

**Compatible Wire Sizes:** 12-28 AWG

**System Compatibility:** "Do NOT connect Wyze Sprinkler directly to pumps (only pump relays) and do NOT use Wyze Sprinkler with index valves."

## BASIC OPERATIONS

1 **Water a specific zone**

Press the forward and back arrows to select the desired zone, then press the water droplet button to begin watering.

2 **Stop a current watering**

Press the stop watering button.

## INTRODUCING SPRINKLER PLUS

Your Wyze Sprinkler comes with one year of Sprinkler Plus which adds advanced weather data to Wyze Sprinkler. Sprinkler Plus makes it easy to ensure your plants get the right amount of water at the right time—no more watering in the rain! With Sprinkler Plus you get:

**Smart Schedules.** Sprinkler Plus automatically waters your plants for you based on when they actually need it. No more worrying about manually scheduling a watering!

**Weather Skips.** Automatically skip a watering if it's too cold, windy, or if rainfall is expected.

**Cycle/Soak.** If you water a zone for too long, some of the water may run off and be wasted. Cycle/Soak breaks your watering down to multiple cycles, giving the soil time to soak the water in for better efficiency.

**Advanced Zone Details.** With Sprinkler Plus, you can see the exact moisture level of each zone so you can be sure your plants are happy.

**Get started at [service.wyze.com/redeem](https://service.wyze.com/redeem)**

## FAQ

**Do I need to have Sprinkler Plus?**

No. Sprinkler Plus is an optional service that adds a ton of smarts to your system. With Sprinkler Plus you can create Smart Schedules, enable Weather Skips, and view detailed Zone Moisture information.

**How does Sprinkler Plus decide when to water?**

Sprinkler Plus uses the previous and forecasted weather to calculate the water balance of each zone. When the water balance gets too low, we'll schedule a watering. You can learn more at [wyze.com](https://wyze.com)

**What happens if the device goes offline?**

Wyze Sprinkler will continue watering based on your normal schedule for the next 14 days if it loses connection to the internet. After that, we'll fall back to the Offline Schedule, which you can customize in Settings.

**How do I edit my zone parameters?**

For the best experience, make sure each zone is configured correctly. Go into each zone's Settings page and check that you have the correct soil type, crop type, spray head, etc. selected. Some of these settings have advanced settings associated with them, so feel free to dig deeper if you really want to get in the weeds (pun intended).

**Can I use my existing soil and rain sensors?**

Wyze Sprinkler works with many brands of sensors. Visit [Wyze.com](https://wyze.com) for details and wiring instructions.

**Why is the grass always greener on the other side?**

Probably because they are using Wyze Sprinkler.

## FCC COMPLIANCE STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## RADIATION EXPOSURE STATEMENT

In order to comply with FCC radiation exposure limits this equipment must be installed and operated to provide at least 20cm separation from the body at all times. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## ISED STATEMENT

- English: This device complies with Industry Canada license - exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device. The digital apparatus complies with Canadian CAN ICES - 3 (B)/NMB - 3(B).

- French: Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. This radio transmitter (ISED certification number: 26041-WSPRK1) has been approved by Industry Canada to operate with the antenna types listed with the maximum permissible gain indicated. Antenna types not included in this list, having a gain greater than the maximum gain indicated for that type, are

strictly prohibited for use with this device.

Le présent émetteur radio (ISED certification number: 26041-WSPRK1) a été approuvé par Industrie Canada pour fonctionner avec les types d'antenne énumérés ci-dessous et ayant un gain admissible maximal. Les types d'antenne non inclus dans cette liste, et dont le gain est supérieur au gain maximal indiqué, sont strictement interdits pour l'exploitation de l'émetteur.

## ISED STATEMENT

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

## DÉCLARATION D'EXPOSITION AUX RADIATIONS

Cet équipement est conforme aux limites d'exposition aux radiations définies par le Canada dans un environnement non contrôlé. Cet équipement doit être installé et utilisé à une distance minimum de 20cm entre l'émetteur et votre corps.

## PRODUCT WARRANTIES

1-year limited warranty

For more information and for how to initiate a warranty claim, visit <https://wyze.com/return-warranty-policy>

## IP DISCLOSURES

"Apple and the Apple logo are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc."

"Google Play is a trademark of Google Inc."

## CAUTION

**RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE**

**DISPOSE OF USED BATTERIES ACCORDING TO THE FOLLOWING INSTRUCTIONS**  
DO NOT recharge, short-circuit, disassemble, deform, heat or place the battery near a direct flame. This battery contains flammable materials such as lithium and organic solvent and performing any of the above actions could cause it to ignite, explode, or become damaged. DO NOT over-discharge the battery. In case the battery is over-discharged when connected with exterior power source or connected with other batteries in series, explosion may occur. Keep this battery out of the reach of children. If it is swallowed, contact a physician immediately. When storing a battery or throwing it away, be sure to cover it with tape. If the battery is contacted with other metal objects, it could cause fire or become damaged. The battery is non rechargeable, charging can be dangerous.
