

QUICK START GUIDE

IN THE BOX

Wyze Sense Entry Sensor v2 × 3
AAA Batteries × 3
Quick Start Guide × 1

ACTIVATION

To use Wyze Sense Entry Sensor v2, you will first need to have set up your Wyze Sense Hub (sold separately). If you plan to use your new sensor to monitor your home, make sure to activate your Home Monitoring service by going to services.wyze.com.

Note: If you ordered a Wyze Core Starter Kit online, you may activate your Home Monitoring service through your email.

SETUP

➤ Control and monitor your entire home via the Wyze app. To get started, simply download the Wyze app to your mobile phone and log in or create an account.

➤ If you haven't already set up your Wyze Sense Hub, navigate to the Wyze app and go into the Home Monitoring Tab. When your Home Monitoring license is activated, you can tap on the **Start Setup** button. This will guide you through the installation process. Not seeing this screen? Go to services.wyze.com to activate.

➤ To add your device to a previously installed system, open the Wyze app and tap the + plus sign on the top left corner of the Home screen. Tap **Add Device** and select Wyze Entry Sensor. Follow the instructions in the Wyze app to finish setup.

INSTALLATION

Entry sensors should be mounted so the two components of the sensor are together when the door or window is closed & apart when it's open. The lines on the side of each component should be aligned & facing each other when installed.

➤ Remove the plastic battery tab. If you previously removed it, press & hold the reset button until the status light flashes 3 times

➤ Name your sensor

➤ Clean the desired mounting location & wait for it to dry completely

➤ Use the adhesive to secure the sensor into place

FCC WARNING:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause

harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RADIATION EXPOSURE STATEMENT:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ISED C RADIATION EXPOSURE STATEMENT:

This equipment complies with ISED C RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment

should be installed and operated with minimum distance 20cm between the radiator & your body.

Cet appareil est conforme aux limites d'exposition de rayonnement RF ISED C établies pour un environnement non contrôlé. Cet émetteur ne doit pas être co-implanté ou fonctionner en conjonction avec toute autre antenne ou transmetteur. Cet équipement doit être installé et utilisé avec une distance minimale de 20cm entre le radiateur et votre corps.

ISED C RSS WARNING:

This device complies with ISED C licence-exempt RSS standard (s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'ISED C applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
