

QUICK START GUIDE

Read this manual carefully and save it for future reference.

Disclaimer: The products, accessories, user interfaces, etc. illustrated in this guide are intended for reference only. Due to product updates, the actual product and the illustrations in this guide may vary.

WELCOME TO WYZE

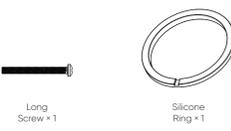

Hi! Thanks for getting your hands on a Wyze Cam Floodlight Plug-In Mount, and if this is your first Wyze product, welcome to the Wyze family! You just made a commitment to a better, more connected lifestyle.

Please read this guide carefully before setting up the device, and keep it in a safe place for future reference.

IN THE BOX

Only for use with Floodlight Pro

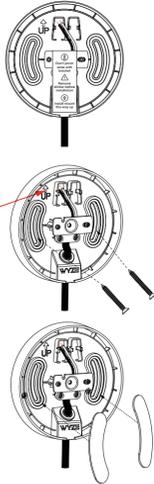

INSTALLING THE MOUNTING PLATE

1 Carefully read the instructions on the label! Then, remove the label before securing the mounting plate.

2 Secure the mounting plate to the wall with the long screw provided in the accessory kit.

NOTE: Please secure the mounting plate according to the direction indicated by the UP arrow.

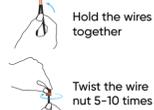

3 Remove the release paper from the foam tape and attach it to the screw hole according to the diagram.

SECURING FLOODLIGHT v1/v2 TO THE MOUNTING PLATE

1 Hang the floodlight on the mounting plate using the provided hook as shown in the picture.

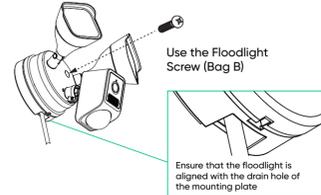

2 Connect the hot wire (usually black) from your floodlight to the hot wire from your power cable. Then connect the 2 neutral wires (usually white). Cap the wires using wire nuts and twist them 5-10 times. Gently tug on the wire nut to make sure it's securely attached.

IMPORTANT: If you are not sure which wire is which, please consult an electrician for safety.

3 Press the wire nuts into the card slot as shown in the figure.

4 Screw your Wyze Cam Floodlight to the mounting plate using the floodlight screw (Bag B).

Use the Floodlight Screw (Bag B)

Ensure that the floodlight is aligned with the drain hole of the mounting plate

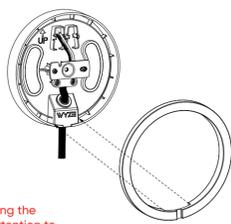

NOTE: When attaching the floodlight to the mounting plate, do not let the power cable of the floodlight rest on top of the metal sheet of the mounting plate. Ensure that the floodlight screw is tightened securely.

5 Place the rubber stopper over the floodlight screw to protect the screw.

SECURING FLOODLIGHT PRO TO THE MOUNTING PLATE

1 Install the silicone ring onto the mounting plate.

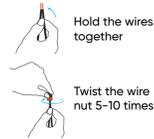

NOTE: When installing the silicone ring, pay attention to the arrow indication in the picture to ensure proper fit here.

2 Hang the floodlight on the mounting plate using the provided hook as shown in the picture.

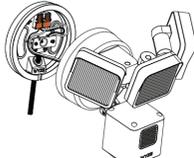

3 Connect the hot wire (usually black) from your floodlight to the hot wire from your power cable. Then connect the 2 neutral wires (usually white). Cap the wires using wire nuts and twist them 5-10 times. Gently tug on the wire nut to make sure it's securely attached.

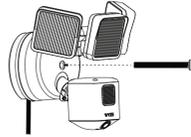

IMPORTANT: If you are not sure which wire is which, please consult an electrician for safety.

4 Press the wire nuts into the card slot as shown in the figure.

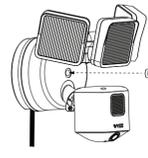

5 Screw your Wyze Cam Floodlight to the mounting bracket using the long screw.

NOTE: When attaching the floodlight to the mounting plate, do not let the power cable of the floodlight rest on top of the metal sheet of the mounting plate. Ensure that the floodlight screw is tightened securely.

6 Place the rubber stopper over the floodlight screw to protect the screw.
